<b>Other</b>	<b>Charge</b>
Weigh vehicle	\$25.00 per weigh

1. Residential user fees apply to residential waste hauled by non-commercial vehicles.
2. Unsecured loads which result in escapement of waste during transport within site are charged double the applicable fee. If load weighs 450 kilograms or less, a minimum fee of \$25.00 will apply.  
  
Segregated loads are defined as containing pre-sorted, uniform waste types. Segregated loads with more than one waste category will be charge for the most abundant material.
3. Defined as loads containing greater than 10% by volume of other waste, including recyclable waste. Non-segregated loads are ineligible for the 450 kilogram weight exemption and a minimum fee of \$25 will apply.
4. Disposal by appointment only. Load must be accompanied by all required transport or disposal manifests.
5. Special Waste Material as defined by the Canadian Food Inspection Agency. A valid permit to transport Specified Risk Material is required from the Canadian Food Inspection Agency and must be presented to Cariboo Regional District before acceptance into the landfill. Disposal of Specified Risk Material is by appointment only, and only at the GIBRALTAR landfill site. No out of Region material accepted.
6. Loads over 450 kilograms will be charged for the entire weight of the load.
7. Must be contained in plastic bags, no loose invasive plants will be accepted.
9. Contaminated Recyclables or Damaged Recyclables that are not marketable or cannot be safely accepted for recycling are not included in this category.
  - a. “Contaminated Recyclables” means any Recyclables that are soaked, stained, encrusted or otherwise containing: blood, grease, oil, chemicals, excessive food residue, or any type of excrement or other material that will render the Recyclables as unmarketable. Passenger and light truck tires that are on rims or excessively dirty also fall into this category.
  - b. “Damaged Recyclables” includes but is not limited to: florescent light bulbs and computer or TV screens that have been broken. Passenger and light truck tires that are cut or shredded also fall into this category.
